- ◆ INDOOR & OUTDOOR BRANDING
- ◆ OFFICE/LOBBY/DEPARTMENT SIGNS

STUDIO AFRIKA is pleased to offer Signage Services for number of applications. We are specialized in many more inventive products but could develop standard signs for Offices, Factories, Restaurants, Vehicles, Schools and more. We manufacture Signs, Letters and Logos according to your design and specifications. Brand Impact offers Sign and Vinyl cutting service all over Pakistan. You can use our sign service for small, medium and large businesses as we provide Vinyl, Acrylic, Fibre, Wood, SS & MS Signs to customers with different needs. You can use our friendly service to get your specified Signs, Logos, Letters designed and converted into 2D/3D Signs as per your requirements and specifications. A variety of materials can be combined for all your sign needs. Whether you are a sign professional or a do-it-yourself, you will find that you can build your signs easily and hassle-free with our friendly services. If you install the signs yourself, we can help you save time and money. Optional installation template can be included and shipped with your order showing exact spacing as in the file. Signs and Logos, that usually take hours to install, can be done in minutes. We also offer custom fabrication and installation guides to help you with your sign project.

WHY YOU NEED SIGNS IN YOUR OFFICE/FACTORY

STUDIO AFRIKA believes that customers first impression is very important for any brand that's why 2D/3D signs can create a great impact on your customers with eye catching 2D/3D Logos for exterior and interior. There are several reasons you should consider getting signs in your office or factory. First of all, you should consider getting fire safety signs in your office or factory because they are the most important. Fire safety should be taken seriously as it can be catastrophic when it comes to the loss of human lives. You should also get signs to indicate the factory environment and the necessary steps that people should take when in the factory. For example, most factory environments require certain safety and precautionary measures to be taken while some areas are off limit. Signs can help you with indicating all such necessary instructions and guidelines. Signs are important in offices and factories because it's not possible to monitor or survey the entire campus all the time. Thus, signs can help provide people with necessary guidelines and instructions.

▶ COMPUTERIZED LASER ENGRAVING

STUDIO AFRIKA offers impeccable Computerized Laser Engraving Services. We engrave, etch or mark on many products including Acrylic, Aluminium, Corian, Glass, Steel, Stone, Marble, Granite, Wood and many more. We provide fast and simple methods to permanently mark various metals using laser power to make high contrast, high resolutions mark. We can mark or etch stainless steel, carbide, chrome, brass, copper & pewter along with several other metals. Coated as well as painted metals have always been quickly engraved with our laser systems, provided there is a contrast in colour between the outer and underneath colours. Anodized aluminium products have always been a popular material with regard to laser engraving because the laser bleaches the colour, creating an attractive contrasted mark, without interfering with the anodization process.

▶ COMPUTERIZED LASER CUTTING

STUDIO AFRIKA Laser Cutting is the technology that is commonly used on materials of various types using a powerful laser beam. We offer you the best Laser Cutting Service and not just that, we can cut sheets of size up to 12mm thickness of materials such as Acrylic, although at the moment the Laser Cutting service offered by Brand Impact is limited to non-metallic materials. If you're wondering which materials can you get cut using our Laser Cutting service, here are some common materials that we can cut using our Laser cutting machine: Acrylic and Plexiglass can definitely be cut as well as balsa wood, beech wood, and veneer wood. You can also avail this service to get Leather, Fabric, Paper and Cardboard cut. Architectural Scale Models, Lobby Signs and Logos, Monument Signs, Exhibits, Trade Show Displays, Corporate Promotions, and Product Displays are the common applications of Laser Cutting. Laser Cutting provides certain advantages that will convince you to use this service. It's a precise process and requires less energy as compared to other cutting processes, especially if the material to be cut is hard and thick.

▶ CORPORATE BRANDING, GIVE AWAY & PROMOTIONAL ITEMS/GIFTS

STUDIO AFRIKA offers you a chance to give your product a boost with our unique and personalized promotional products that will help your product reach a broader audience. You can also take advantage of our give-aways and promotional item services for other purposes such as awarding your loyal customers and clients with different promotional items. This is a special service because you can have us print and engrave your logo or customize on a wide range of products. Promotional gifts have become far more than just a growing trend in event marketing or just for brand awareness. Companies are discovering that the benefits are widespread, allowing you to get your brand's name out there in the most appropriate and unique ways. Corporate products are a greatly effective way to reward, thank or inspire employees, customers or potential customers, while still educating and informing people about your brand. These are some common give-aways and promotional items that you can use to boost your business and reward your clients and customers or employees.

07

VIDEOS & PHOTOGRAPHY

The goal of the film is to communicate already what your brand is all about. One of the biggest search engines these days is YouTube which can help your brand reach out to millions without any sort of costs. A film or video can help your brand promotion in certain ways firstly through multiple search engines.
